INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 02092/PCT-dc	FOR FURTHER see Notification of (Form PCT/ISA/2	of Transmittal of International Search Report 20) as well as, where applicable, item 5 below.					
International application No.	International filing date (day/month/year)	(Earliest) Priority Date (day/month/year)					
PCT/EP 03/06639	23/06/2003	27/06/2002					
Applicant							
STMICROELECTRONICS S.R.L.							
This International Search Report has been according to Article 18. A copy is being tra	n prepared by this International Searching Aut ansmitted to the International Bureau.	nority and is transmitted to the applicant					
	of a total of A shoots	•					
This International Search Report consists It is also accompanied by	of a total of sheets. a copy of each prior art document cited in this	report.					
in also determined by							
Basis of the report							
With regard to the language, the language in which it was filed, unline in the language in which it was filed, unline in the language in which it was filed, unline in the language.	international search was carried out on the ba less otherwise indicated under this Item.	sis of the international application in the					
Authority (Rule 23.1(b)).	ras carried out on the basis of a translation of t						
b. With regard to any nucleotide an was carried out on the basis of the	nd/or amino acid sequence disclosed in the in	nternational application, the international search					
	e sequence risting: onal application in written form.	*					
	filed together with the international application in computer readable form.						
furnished subsequently to	furnished subsequently to this Authority in written form.						
	this Authority in computer readble form.						
international application a	bsequently furnished written sequence listing o as filed has been furnished.	•					
the statement that the info	the statement that the information recorded in computer readable form is identical to the written sequence listing has been						
2. Certain claims were fou	ind unsearchable (See Box I).						
3. Unity of invention is lac							
4. With regard to the title,							
1 <u>L</u> -1	ubmitted by the applicant.						
the text has been established	shed by this Authority to read as follows:						
<u> </u>	•						
5. With regard to the abstract,							
	ubmitted by the applicant.						
the text is approved as describing to the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.							
6. The figure of the drawings to be pub	lished with the abstract is Figure No.	5					
X as suggested by the appl		None of the figures.					
because the applicant fai	led to suggest a figure.						
because this figure better	r characterizes the invention.						

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 G09G3/36

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 G09G

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)
